CAPTURE THE END

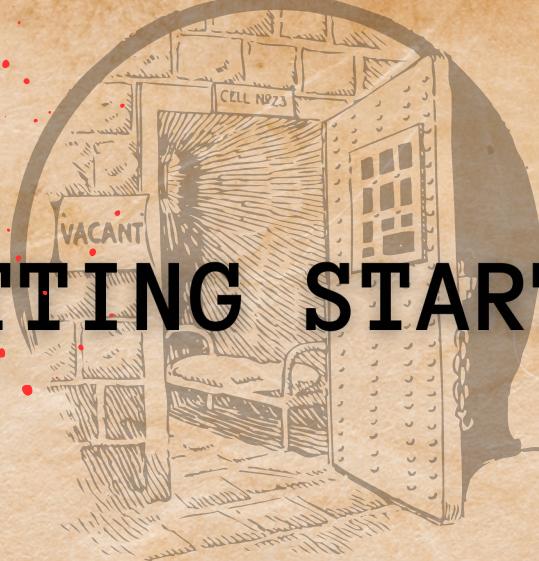

USE OF UNAUTHORIZED PRODUCT

It is important to emphasize that the use of unauthorized products, such as cracked or pirated versions of the game, is strictly prohibited. The use of such products not only violates copyright laws, but it also harms the integrity of the game and undermines the efforts and investments made in its development. Additionally, unauthorized products may contain viruses or malware that could potentially harm the player's device. As such, we strongly advise players to only use legitimate copies of the game purchased through authorized channels, to ensure the best possible experience and to support the ongoing development of the game.
